DETAILED ACTION

Applicant's preliminary amendment filed on 22 January 2004 is acknowledged and entered. Following the amendment, the original claims 1-18 and 20-26 are canceled, claim 19 is amended, and the new claims 27-32 are added.

Currently, claims 19 and 27-32 are pending.

Species Election:

Claim 19 is generic to the following disclosed patentably distinct species:

Species I (heavy chain CDR): SEQ ID NO:12, 14, 16, 28, 30, 32, 44, 46, and 48;

Species II (light chain CDR): SEQ ID NO:4, 6, 8, 20, 22, 24, 36, 38, and 40.

The species are independent or distinct because each of SEQ ID NOs has a unique sequence structure, requiring a separate search of the prior art. Searching all of the sequences in a single patent application would constitute an undue search burden on the examiner and the USPTO's resources because of the non-coextensive nature of these searches.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species from each group, even though this requirement is traversed. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
